

A MESSAGE FROM THE CHAIRMAN OF THE BOARD

Alii, ungil sils leko er kau! It is with great pleasure that I present to you the Palau Red Cross Society (PRCS) Strategic Plan for 2018-2022 - a roadmap that will guide us for the next five years. This plan

sets forth the long-term strategic goals and objectives for carrying out the National Society's mission. It is a direct result of careful consultations, workshops, and planning sessions with stakeholders and representatives from different sectors of the Palauan community.

In the course of its existence, since its inception in 1997, PRCS has gone through many challenges yet has persevered to establish itself as the leading humanitarian organization in Palau, auxiliary to the Palau Government for such purposes.

For the past six months, the PRCS Governing Board and management have undertaken ambitious initiatives for capacity building and strengthening of PRCS. As a result, the management team has gained momentum with new programs and is now focused on communication and transparency in order to secure ownership to its general membership and the community as a whole.

The strategic plan begins with the vision and the mission set forth for Palau Red Cross Society in accordance with the seven fundamental principles of the Red Cross and Red Crescent Movement worldwide. Then, it sets out the goals and priorities that will help bring the needed humanitarian services to alleviate sufferings whether man-made or by forces of nature, especially on the most vulnerable among us.

We would like to thank all collaborators, especially Rubekul Belau, who contributed in the development of this guiding document to further the work of the Palau Red Cross Society. It is with your blessing and partnership that PRCS can continue to grow to better serve our people.

Sincerely,

Santy Asanuma
Chairman, National Governing Board
Palau Red Cross Society

THE FUNDAMENTAL PRINCIPLES OF RED CROSS

HUMANITY: The International Red Cross and Red Crescent Movement, born of a desire to bring assistance without discrimination to the wounded on the battlefield, endeavors in its international and national capacity to prevent and alleviate human suffering wherever it may be found. Its purpose is to protect life and health and to ensure respect for the human being. It promotes mutual understanding, friendship, cooperation and lasting peace amongst all peoples.

IMPARTIALITY: The Movement makes no discrimination as to nationality, race, religious beliefs, class or political opinions. It endeavors to relieve the suffering of individuals, being guided solely by their needs, and to give priority to the most urgent cases of distress.

NEUTRALITY: In order to continue to enjoy the confidence of all, the Movement may not take sides in hostilities or engage at any time in controversies of a political, racial, religious or ideological nature.

INDEPENDENCE: The Movement is independent. The National Societies, while auxiliaries in the humanitarian services of their governments and subject to the laws of their respective countries, must always maintain their autonomy so that they may be able at all times to act in accordance with the principles of the Movement.

VOLUNTARY SERVICE: It is a voluntary relief movement not prompted in any manner by desire or gain.

UNITY: There can be only one Red Cross or one Red Crescent Society in any one country. It must be open to all. It must carry on its humanitarian work throughout its territory.

UNIVERSALITY: The International Red Cross and Red Crescent Movement, in which all Societies have equal status and share equal responsibilities and duties in helping each other, is worldwide.
