- The hygiene kits that were donated by the International Organization for Migration Agency (IOM)Palau are being sorted and will be distributed soon to households assessed after Typhoon Surigae.

- Non-food items (NFIs) to Koror State residents who were assessed as Category 0 & 1 for damage levels are pending, dependent on Koror State's pick up of the NFI's and then distribution to recipients. Koror State has the highest number of households that fall under Category 0, 1 and 2.
- PRCS conducted its first drafting session for its Stockholding Plan. As the only agency with emergency prepositioned supplies in the country, ready to support a national disaster at any time is key and the Stockholding Plan training advances this part of PRCS's readiness. PRCS received donations of up to 100 households' worth of stocks in its containers from its partners in previous years, which supported single disaster incidents from damages caused by fires, landslides and others. However, with Typhoon Surigae and the current pandemic causing delays in bringing in non-food supplies from the Global Red Cross and Red Crescent Movement, this stockholding plan is to accommodate the beneficiaries efficiently after a natural disaster. This activity was supported by the International Federation of Red Cross and Red Crescent (IFRC) Suva Senior Logistics Officer, Mr. Hinal Kumar and Typhoon Surigae Logistics remote support for PRCS, Ms. Catherine Harris.

PRCS staff who attended the training included Disaster Management Officer JB Victorino, Logistics Surge for Typhoon Surigae F. Afamasaga (1st photo, far right), and Logistics & Distribution personnel R. Sokau (1st photo, in yellow), J. Bells (1st photo in middle wearing black), and K. Rebelkuul (last photo holding customs form), and Field Operations B. Mengloi (middle photo, wearing red).
